

If you are **German university alumni from the Global South** (DAC developing country nationals) with a proven background in academic fields relevant to the topics of renewable energy, energy efficiency, integrated sustainable (water) resource management, green growth strategies and respective domains

APPLY NOW
for the

DAAD ALUMNI SPECIAL PROJECT in the framework of

International Circular Economy Week and Conference – [ICEW](#)

This Alumni Special Project – organized by the DAAD – includes three parts of training, networking, matching, collaboration and conference participation and runs for 14 months – from 1 September 2021 to 31 October 2022.

The partnering three German Higher Education Institutions (HEIs) who carry out the project are:

- **Institute for Applied Material Flow Management (Trier University of Applied Sciences)**
- **Brandenburg University of Technology Cottbus-Senftenberg (BTU)**
- **University of Applied Sciences Weihenstephan-Triesdorf (HSWT)**

Part I: **Virtual Training Seminars 2021 / 2022** – will take place from **September 2021 - January 2022**, organized by each of the selected universities, **followed** by the **online** participation in the **International Circular Economy Week and Conference, 25 - 29 October 2021**.

Part II: **Blended learning, networking and matching components** – will take place from **December 2021 - September 2022**.

Part III: **Presence Training Seminars 2022** – will take place from **17 - 23 October 2022** as **face-to-face seminars** at each of the selected universities, **followed** by the **participation in presence** in the **International Circular Economy Week and Conference 2022** – which will take place from **24 - 28 October 2022** at the Environmental Campus Birkenfeld.

The CALL FOR APPLICATION (one for all organizing HEIs) is out now!

Please consider that you can only submit one application to the prioritized HEI, but you are encouraged to confirm a second HEI preference.

=> ***Have a look at the call to find out the specialising profile and topics of focus*** of the preparatory programme of the individual seminars of Trier University, BTU Cottbus-Senftenberg and HSWT Weihenstephan-Triesdorf.

Please make sure that you can participate in this 14 months running project in its entirety, as this is a mandatory requirement for participation.

Application deadline: 30 June 2021

Please address your application directly to the contact/s named in the call for application.

The call is available on our website www.daad.de/alumni-special-projects.
